Profile

I am a student of algorithmic computer science. I have been fascinated by IT since early childhood, that is, since the summer after I graduated from middle school when I started writing my first programs in python. I like to develop my skills in numerous fields.

Education

Wrocław University of Science and Technology
Algorithmic Computer Science

2022 – present

XXI Liceum Ogólnokształcące im. św. Stanisława Kostki

2019 – 2022
Lublin

Languages

Polish
Native

English
C1

French
A2

Projects

RTS game

01/2025 – 02/2025

Simple game client-server in Godot engine.

Compiler

01/2025 – 02/2025

A compiler translates source code written in simple imperative language into assembly instructions, which are then executed by virtual machine. The compiler is implemented in C++, using **Flex** for lexical analysis and **Bison** for parsing

Chess engine

present
